

## Global-WEB Laboratory Approval Class 'A' methods

For Shanghai imat automotive technology service  
limited company  
SOHO Zhongshan Plaza, A-1001, 1055 West Zhongshan  
Road, Changning District  
Shanghai 200051  
P.R. China

Approval is granted based on available accreditation in accordance with  
DIN EN ISO/IEC 17025: 2005, a self-disclosure from the laboratory, assessment on  
site according to VDA 250 Section A, and the performance of tests, which have been  
recognized by Daimler AG.

The status of internal re-qualification and the results of external round-robin tests with  
approved methods shall be reported on annually to Daimler AG.

Every method-related process change is to be reported immediately to the approving  
authority. Tests carried out by subcontractors are the responsibility of the certificate  
holder. The Laboratory and all subcontractors used are to be listed in the report with  
name, site, and certificate number.

  
Markus Weiß  
Team leader  
Daimler AG

  
Heike Gäbler  
Deputy of team leader  
Daimler AG

## Detail Appendix

Global-WEB Laboratory Approval Class 'A' methods • Page 1 of 1

Norm	Title	Name	Period of Validity
DBL 5430	Emissions and Odor in the Vehicle Interior (2015-01)	6.3 Odor measurement	01/2015 - 12/2018
DBL 5430	Emissions and Odor in the Vehicle Interior (2017-12)	6.1 Sample handling and conditioning	01/2015 - 12/2018
DBL 5430	Emissions and Odor in the Vehicle Interior (2017-12)	6.2 Thermal desorption analysis of materials and their composites	01/2015 - 12/2018
DIN 75201	Determination of the fogging characteristics of trim materials in the interior of automobiles (2011-11)	B - Determination of the fogging characteristics of trim materials in the interior of automobiles	01/2015 - 12/2018
DIN ISO 12219-4	Interior air of road vehicles – Part 4: Method for the determination of the emissions of volatile organic compounds from vehicle interior parts and materials – Small chamber method (ISO 12219-4:2013), English translation of DIN ISO 12219-4:2013 (2013)	Method for the determination of the emissions of volatile organic compounds from vehicle interior parts and materials – Small chamber method	01/2015 - 12/2018
VDA 270	Determination of the odour characteristics of trim materials in motor vehicles (2017-02)	Odour test (variant 1)	01/2015 - 12/2018
VDA 270	Determination of the odour characteristics of trim materials in motor vehicles (2017-02)	Odour test (variant 2)	01/2015 - 12/2018
VDA 270	Determination of the odour characteristics of trim materials in motor vehicles (2017-02)	Odour test (variant 3)	01/2015 - 12/2018
VDA 276-1	Determination of organic substances as emitted from automotive interior products using a 1 m <sup>3</sup> test cabinet (2005-12)	Determination of organic substances as emitted from automotive interior products using a 1 m <sup>3</sup> test cabinet	01/2015 - 12/2018
VDA 276-1	Determination of organic substances as emitted from automotive interior products using a 1 m <sup>3</sup> test cabinet (2005-12)	Standard-Emission test	01/2015 - 12/2018
VDA 278	Thermal Desorption Analysis of Organic Emissions for the Characterization of Non-Metallic Materials for Automobiles (2011-10)	Thermal Desorption Analysis of Organic Emissions for the Characterization of Non-Metallic Materials for Automobiles	01/2015 - 12/2018
