

Emissions and Odor in the Vehicle Interior 2021

Online Seminar

Session 1

November 10, 2021

Focus: Emissions

08:55 Check-in

09:00 Welcome and introduction

09:15 Basic physicochemical principles of emissions testing

Matthias Büsselmann, Senior Expert VIAQ, VOC, Odor

09:55 Break

10:00 Delivery specifications on the emission behavior of materials in automotive interiors using the example of DBL 5430

Markus Eickeler, Project Engineering & Sales - Senior Expert

10:50 Break

10:55 Emission test methods in practice - an overview

Dirk Felkel, Senior Expert VIAQ, VOC

11:45 Discussion / Q&A

12:15 End of Session 1

November 17, 2021

Focus: Odor

08:55 Check-in

09:00 Welcome and introduction

09:15 Physiology and psychophysics of olfaction

Dr. Michael Holzwarth, Head of Competence Center VIAQ, VOC, Odor

10:05 Break

10:10 Odor panel management

Clement Negra, Expert Odor, Fogging & Formaldehyde

10:50 Break

10:55 Concepts for the perception of odor mixtures

Dr. Michael Holzwarth, Head of Competence Center VIAQ, VOC, Odor

11:45 Discussion / Q&A

12:15 End of Session 2

Session 2
